YOU DON'T HAVE TO BREAK A HAT TO RUIN IT.

BIG EATERS GET KIDNEY TROUBLE

Take Salts at First Sign of Bladder Irritation or Backache.

The American men and women most guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like jumps of heat, your back hurts or the urine is cloudy, full or sediment of you are obliged to seek relief two or three times during the night; if you suffer with sick headache of dizzy, nervous sickness, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then feel fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithium, and has been used for generations to flush and stimulate kidney kidneys, to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

FUNERAL OF THE LATE JHON A. LEE WILL BE TOMORROW AFTERNOON

All Friends of Dead Pioneer Business Man Will Have Opportunity to View Remains Tomorrow Morning From 9 to 12.

Arrangements for the funeral of the late John A. Lee, pioneer merchant of Albuquerque, were completed this morning, and the service announced for tomorrow, Wednesday afternoon at 2:30 o'clock, at the family home 822 West Copper avenue. Rev. Hugh A. Cooper, pastor of the First Presbyterian church, will conduct the services at the residence and Albuquerque Lodge No. 461, H. P. O. E., will perform the burial service of the Elks fraternity at Fairview cemetery. The bearers, all associates of the dead pioneer during many years of business activity in Albuquerque, will be as follows:

Chicago Grain

Chicago, June 9.—Selling due to the local influence of the government crop carried the wheat market today to a lower level. Prices after opening at 1-1/2¢ to 1-1/4¢ down, called a little, but then sank lower before the close.

The close was steady at 1-1/4¢ to 1-1/2¢ no decline.

Although corn at first received little support, the market later scored a substantial advance. The opening which ranged from 1-1/2¢ to 1-1/4¢ up to a shade, was followed by a gain in amount.

The close was steady, 1-1/4¢ off to a sixteenth up, compared with last night's gain swayed with corn. An early decline was entirely overcome. Lower prices at the yards acted as a weight on provisions. Prices sagged from the start.

Wheat—July, 85 1/2¢; Sept., 83 7-1/2¢. Corn—July, 71-1/4¢; Sept., 68 1-1/2¢. Oats—July, 140 1-1/4¢; Sept., 138 1-1/2¢. Pork—July, 200 7/8¢; Sept., 199 9/16¢. Lard—July, 110 7/8¢; Sept., 110 1/2¢. Ribs—July, 111 3/4¢; Sept., 111 1/2¢.

PICTURE TRIP THROUGH THE PANAMA CANAL

C. G. Carty, who has spent nine years in the Panama canal zone, will lecture at the Congregational church tonight at 8 o'clock.

This lecture is given under the auspices of the Y. P. S. C. E. and will be illustrated by seventy-two magnificent panoramic colored stereopticon slides taken from photographs on the canal. The church recently has purchased a stereopticon machine of the latest type, and when tried out with the slides of this lecture on Saturday evening last it was proven to be the scene of stereopticon machines, and the slides are rare gems of art, the coloring being done by artists employed for such work by the Keystone View Co. of Meadville, Pa.

Beginning at the Atlantic side of

the Canal, the lecturer takes his audience on a journey by picture through the canal to the Pacific side. The pictures give a vivid idea of the work that has been done and also show many beautiful views of the surrounding country, including forests, native dwellings, sanitary conditions at the beginning of the canal and at the present time.

This lecture is being repeated for the benefit of those who failed to attend when it was given some months ago to a crowded house.

The new machine and colored views assure the general public a rare treat. No admission will be charged and a cordial welcome is extended to all.
